DCI Weekly Report

Office of the Inspector General

Jim Taylor will return from his trip to Europe this weekend and will be back in the office on Monday morning.

We have begun the process of briefing the Deputy Directors on our intended expansion of Audit Staff responsibilities for systematically reviewing some aspects of compliance with Executive Order 12333. Thus far the DDS&T has been briefed, and we expect to brief the DDO next week.

On 2 March we hosted a briefing provided by Peter Goldberg, who is with the Antitrust Enforcement element of the Department of Justice. The purpose of his briefing was to sensitize interested Agency components in techniques of price fixing, bid rigging, and other typical antitrust violations. Representatives from the DDS&T, the Office of Logistics, the Office of Finance, and the Audit Staff were in attendance.

We are currently putting the final touches on the rehired annuitant inspection, and that report will be released for component review next week.
